Due to an error in the production process, the title of this article should read ‘Symmetric Tape Round (STAR) REBCO wire with  $J_e$  (4.2 K, 15 T) beyond  $450 \text{ A mm}^{-2}$  at 15 mm bend radius: a viable candidate for future compact accelerator magnet applications’. Furthermore, all references to ‘symmetric tape round wires’ should be ‘Symmetric Tape Round (STAR) wires’.

In the ‘Tape preparation’ subsection ‘The REBCO tape was then slit from a width of 12–2.5 mm using a reel-to-reel

laser slitting machine...’ should read ‘The REBCO tape was then slit from a width of 12 to 2.5 mm using a reel-to-reel laser slitting machine...’.
